|-------------------------------|------------------------------------|
| Lot ID:                       | LOT-A28                            |
| Material:                     | Vinyl Resin Compound (PVC Grade A) |
| Supplier ID:                  | SUP-0081                           |
| Inspection Date:              | April 20, 2026                     |
| Inspector:                    | INS-1144                           |
| Plant Destination:            | Ohio Plant 7                       |
| Quantity (kg):                | 2400                               |
| Tensile Strength:             | 41.6 MPa                           |
| Tensile Spec (min):           | 38.0 MPa                           |
| Color $\Delta E$ :            | 1.25                               |
| Color Threshold:              | 2.00                               |
| Moisture %:                   | 0.38                               |
| Density (g/cm <sup>3</sup> ): | 1.42                               |
| Unit Price (USD):             | \$7.75 / kg                        |
