

APEX Six Key Metrics Framework

Organization: _____

Use Case: _____

Reporting Period: _____

The APEX Metrics Model

Metric 1: Documents Processed (Volume)

Definition

| Attribute | Value | |-----|-----| | **Description** | Total number of documents successfully processed through APEX | | **Formula** | Count of documents with status = "Completed" | | **Data Source** | APEX Command Center / DynamoDB | | **Frequency** | Daily rollup, Weekly/Monthly reporting | | **Target** | Baseline + 20% growth per quarter | | **Owner** | Operations Manager |

Tracking Table

Period	Target	Actual	Variance	Trend	----- ----- ----- ----- -----	Week 1		Week 2	
Week 3		Week 4		Month Total					

Month	Documents	MoM Growth	YTD Total	Month 1	Month 2	Month 3	Quarter
%	%	%	%	%	%	%	%

Document Type	Count	% of Total	Target	----- ----- ----- -----	% % % %
Total	100%				

Attribute	Value	----- -----	Description	Percentage of fields correctly extracted without human correction
	Formula	(Correct extractions / Total extractions) × 100	Data Source	Quality audit samples, human review feedback
	Frequency	Daily sampling, Weekly reporting	Target	≥95%
	Owner			Quality Manager

Document Type	Fields Extracted	Correct	Accuracy	Target	Status
95%	95%	95%	95%	95%	95%
Overall	95%	95%	95%	95%	95%

Field Name	Extractions	Correct	Accuracy	Confidence Avg
------------	-------------	---------	----------	----------------

Error Type	Count	% of Errors	Root Cause	Action	----- ----- ----- ----- -----	OCR								
Quality	%		Field Missing	%		Wrong Value	%		Format Error	%		Total Errors	100%	

Attribute	Value	----- -----	Description	Average time from document receipt to completion		Formula	
	Avg(Completion timestamp - Receipt timestamp)		Data Source	APEX processing logs		Frequency	Real-time monitoring, Daily reporting
			Target	<5 seconds extraction, <60 seconds end-to-end		Owner	Technical Operations

Stage Target P50 P90 P95 P99	----- ----- ---- ---- ---- ----	Document Ingestion <1s BDA
Extraction <5s Validation <2s Business Logic <5s Integration <10s		Total
End-to-End <60s		

Time Trend

Period Avg Time P95 Target Status	----- ----- ----- ----- -----	Week 1	<60s	Week 2	<60s	Week 3	<60s	Week 4	<60s
---	-------------------------------	--------	------	--------	------	--------	------	--------	------

Performance Alerts

Threshold Current Alert Level	----- ----- -----	Warning (>10s avg)	Critical (>30s avg)	Timeout (>300s)	
-----------------------------------	-------------------	--------------------	---------------------	-----------------	--

Metric 4: Cost Per Document (Efficiency)

Definition

Attribute Value	----- -----	Description Total cost to process one document through APEX	Formula (Platform + Compute + Labor) / Documents processed	Data Source AWS Cost Explorer, Finance systems
Frequency Monthly	Target <\$2.00 per document	Owner Finance / Operations		

Cost Breakdown

Cost Component Monthly Cost Documents Cost/Doc	----- ----- ----- -----	APEX Platform License	\$ \$ AWS Bedrock (BDA)	\$ \$ AWS Compute (Lambda)	\$ \$ AWS Storage (S3, DynamoDB)	\$ \$ Human Review Labor	\$ \$ Support & Maintenance	\$ \$ Total	\$ \$
--	-------------------------	-----------------------	---------------------------------	------------------------------------	--	----------------------------------	-------------------------------------	----------------------------	-----------

Cost Trend

Month Total Cost Documents Cost/Doc Target Savings	----- ----- ----- ----- ----- -----	Month 1	\$ \$ \$2.00	\$ Month 2	\$ \$ \$2.00	\$ Month 3	\$ \$ \$2.00	\$ Quarter	\$ \$ \$
--	-------------------------------------	---------	----------------------	----------------	----------------------	----------------	----------------------	-----------------------	------------------

ROI Calculation

Metric Before APEX With APEX Savings	----- ----- ----- -----	Cost per Document	\$ \$ \$
Monthly Volume	Monthly Cost	\$ \$ Annual Savings	\$

Metric 5: Automation Rate (Adoption)

Definition

Attribute Value	----- -----	Description Percentage of documents processed without human intervention	Formula (Straight-through processed / Total processed) × 100	Data Source APEX workflow logs
Frequency Daily, Weekly reporting	Target ≥80% automation rate	Owner Operations Manager		

Automation Breakdown

Outcome Count Percentage Target	----- ----- ----- -----	Straight-Through (Automated)	% 80%	Human Review Required	% 15%	Exception/Failure	% 5%	Total	100%
---------------------------------------	-------------------------	------------------------------	---------	-----------------------	---------	-------------------	--------	--------------	------

Exception Analysis

Exception Reason Count % of Exceptions Action	----- ----- ----- -----	Low Confidence Score	% Validation Failure	% Missing Required Field	% Integration Error	% System Error	% Total Exceptions	100%
---	-------------------------	----------------------	--------------------------	------------------------------	-------------------------	--------------------	-------------------------------	------

Period	Total Docs	Automated	Rate	Target	Status	-----	-----	-----	-----	-----	Week 1						
% 80%		Week 2		% 80%		Week 3		% 80%		Week 4		% 80%		Month		% 80%	

Attribute	Value	----- -----	Description	User rating of APEX experience and value	Formula	
	Average of survey responses (1-5 scale)		Data Source	Monthly user survey	Frequency	Monthly
	4.0/5.0		Owner	Product Manager		

Question	Score (1-5)	Responses	Trend	Overall Satisfaction
APEX saves me time in my daily work	4.5	100%	Stable	Overall Satisfaction: 4.5/5.0
APEX is easy to use	4.5	100%	Stable	
APEX produces accurate results	4.5	100%	Stable	
Exception handling is straightforward	4.5	100%	Stable	
I receive adequate support when needed	4.5	100%	Stable	
I would recommend APEX to colleagues	4.5	100%	Stable	

Category	Count	Percentage	Promoters (9-10)		Passives (7-8)	
			%	%	%	%
Detractors (0-6)						
NPS Score						

Theme	Positive	Negative	Action Items	-----	-----	-----	-----	Accuracy		Speed	
Usability		Support		Features							

Current Period: _____

APEX PERFORMANCE DASHBOARD	
DOCUMENTS PROCESSED	EXTRACTION ACCURACY
. / . ____% MoM	. / . ____% MoM
Target: _____	Target: 95%

PROCESSING TIME	COST PER DOC
____.____ sec	\$____.____
././ ____% MoM	././ ____% MoM
Target: <5s	Target: <\$2.00
AUTOMATION RATE	USER SATISFACTION
____.____%	____./5.0
././ ____% MoM	././ ____% MoM
Target: 80%	Target: 4.0

Health Indicators

| Metric | Target | Actual | Status | |-----|-----|-----|-----| | Documents Processed | | | | Extraction Accuracy |
 ·95% ||| Processing Time | <5s | | | Cost Per Document | <\$2.00 | | | Automation Rate | ·80% ||| User Satisfaction | ·4.0
 |||

Overall Health: _____

Key Actions This Period

Appendix: Metric Definitions Quick Reference

| # | Metric | Formula | Target | Frequency | |---|-----|-----|-----|-----| | 1 | Documents Processed |
 Count(status=Completed) | +20%/qtr | Daily | | 2 | Extraction Accuracy | Correct/Total × 100 | ·95% | Daily | 3 |
 Processing Time | Avg(End - Start) | <5s/<60s | Real-time | | 4 | Cost Per Document | Total Cost / Documents | <
 \$2.00 | Monthly | | 5 | Automation Rate | Auto/Total × 100 | ·80% | Daily | 6 | User Satisfaction | Avg(Survey 1-5) | ·4.0 |
 Monthly |
